The invention relates to mixed powder or mixed granulate containing at least 80 weight % of a mixture of (a) 5 to 70 weight % of at least one glycine-N,N-diacetic acid derivative of general formula (I): $\text{MOOC-CHR-N}(\text{CA}_2\text{COOM})_2$, wherein R = C1-12-alkyl and M = alkali earth metals, (b) 30 to 95 weight % of at least one polycarboxylate in which up to 40 mol-% of the carboxyl groups are neutralised and to the utilization thereof in washing and cleaning agents.
